

### **Advancing from Grade to Grade**

At NLCS (Singapore) students automatically advance from one grade to the next. In exceptional circumstances, we may decide to keep a student in a particular grade for a second year, but this will only be done with express agreement from the parents.

### **Graduate Opportunities**

Students will graduate from NLCS (Singapore) with an IB Diploma. This award gives students access to leading Universities all around the world. Specialised University Guidance programmes will prepare students for applications to the world's leading Universities and we expect to see our graduates moving into a diverse range of courses and careers.
